Испанская фирма «ИНЕСЛАМ» была основана в 1962 году и с тех пор славится своим современным и «идушим в ногу с модой» дизайном светильников. Опыт, технология и дизайн освещения фирмы «ИНЕСЛАМ» направлены на кропотливую работу по приданию формы свету. Престижные дизайнеры, архитекторы и скульпторы фирмы на протяжении вот уже более 58 лет неустанно работают над обновлением ассортимента продукции, постоянно пополняя и обновляя его. Сочетание ремесленных и современных технологий при изготовлении светильников «ИНЕСЛАМ» придает им особую оригинальность, которая превращает свет в произведение искусства.

Original colección de luminarias fabricada en polímero de resina con recubrimiento lacado transparente.

Las propiedades del material permite diseños excepcionales de variadas formas originales y de grandes tamaños.

La elegancia y transparencia del blanco da un toque de distinción en las luminarias.

El proceso de fabricación de las luminarias es manual (hecho a mano), la estructura interna de la luminaria hecha de alambre de acero pintado es recubierta manualmente con un material polímero de resina, que entre sus características y principales ventajas destacan la elasticidad, resistencia y transparencia.

Este tipo de producto ligero, transparente y muy resistente permite la fabricación de formas muy variadas y de gran tamaño muy demandadas por arquitectos, decoradores y profesionales de la iluminación.

Características

El material no se decolora, mantiene el mismo color con el tiempo.

La pantalla no tiene ninguna costura, lo que es sinónimo de resistente y duradera en el tiempo.

El producto es ignífugo, retardante al fuego.

El material tiene un recubrimiento protector exclusivo por lo que la pantalla no acumula polvo.

El producto es fácil de limpiar con un paño húmedo con agua limpia. El material es resistente, elástico y duradero y en caso de alguna deformidad por golpe puede repararse la superficie aplicando aire caliente de un secador de pelo sobre la superficie dañada.

El producto respeta el medio ambiente, no es tóxico y cumple con la normativa RoHS.

This is an original light fixture collection, made of polymer resin with a transparent lacquered finish.

The properties of this material allow for exceptional design in various original shapes as well as larger sizes.

The elegance and transparency of the white finish always add a touch of sophistication.

The entire creation process of these fixtures is purely by hand. The internal structure is made of painted steel wire, manually coated with a polymer resin, which among its characteristics and principal advantages are its elasticity, resistance, and transparency.

This type of light, transparent and very resistant product allows for the kind of original designs and varied sizes highly sought out by today's architects, decorators and lighting professionals.

Tarifa vigente a partir del 20/10/2021

Aditonalmente

The material will not discolour, maintaining its original colour as time passes.

The lampshade does not have any seams or needlework, which means more resistance and durability in the long run. This product is fire-resistant. The material has an exclusive protective coating, which makes the lampshade dust-repellent.

The item is easy-to-clean: simply use a damp cloth.

The material is resistant, elastic and durable. In case of any minor defect, the surface can be repaired simply by applying the hot air of a hair dryer to the damaged area. This product respects the environment, is nontoxic, and is also RoHS-compliant.
